DETAILED ACTION

Drawings

Figure 22 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2821

As per claim 1, lines 6-9, the recited limitation “said emissive layer possessing at the said of the front side, a polarization separator which separates the light emitted from the emissive layer into two kinds of polarized components by the reflection and the transmission,...” is not clear. It appears that the term “at the said of the front side” should be changed to —at the front side thereof—, and the term “two kinds of polarized components by the reflection and the transmission” should be changed to ---two kinds of polarized light components by a reflection and a transmission--. In lines 13 and 14, “the” before “circularly polarized light” and “vertical direction”, respectively, should be changed to —a--.

In claim 4, line 5, change “said” before “polarizer plate” to —a--.

In claims 5 and 9, line 4, respectively, change “the” before “selective reflection” to —a--.

In claim 6, line 2, change “the” before “position” to —a--.

In claim 10, line 5, change “the” before “selective reflection” to —a— and in lines 7 and 8, change “the” before “layer” and “maximum reflectance”, respectively, to —a--.

In claim 12, line 4, change “said” before “substrate” to —a--; in lines 7, 11 and 15, change “the” before “position” to —a--.

In claim 13, line 4, change “the “ before “wavelength range” and “maximum selective reflection”, respectively, to —a--.

In claim 14, line 7, change “said” before “polarizer plate” to —a--.

In claim 15, lines 2 and 3, change “devices” to —device— and “diodes” to —diode--.

In claims 19 and 20, line 2, respectively, change “elements” to —element--.

Art Unit: 2821

Claims 2, 3, 7, 8, 11 and 16 are rejected by virtue of their dependencies on the independent claim.

Allowable Subject Matter

Claims 17 and 18 are allowed.

Claims 19 and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 1-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose "said polarization separator having a reflectance of the wavelength range from 520 nm to 600 nm smaller than a reflectance of range not more than 510 nm (claim 1); "said polarization separator comprising cholesteric liquid crystal layer and said phase plate comprising a quarter wave plate" (claims 17 and 18).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
